

18-21 Year Old Program

Fort Atkinson High School

What is the 18-21 old program?

Passage of Individuals with Disabilities Act (IDEA) in 1990 and subsequent reauthorization in 2007 mandates school districts to provide transition services for students with disabilities in order to improve post-school outcomes for these youth.

18-21 year old service options are designed and developed by the school district to support students who have completed academic requirements/credits for graduation and need to continue to work on their transition goals. They are often referred to as "**18-21 year old programs**".
