

Kindergarten News

Hello families,

Happy Valentine's Day! Thank you to the families that were able to donate items for our classroom celebration. The past two weeks we have been researching and learning about penguins and making our own penguin books. This week we introduced 3D shapes. We have been hunting for them in our classroom and thinking about where else we have seen them. The kindergarteners have continued to work on building numbers different ways, hope your child show you how they do this!

Have a wonderful weekend!

-Ms. Sherratt

This week we learned about...

- Penguins!!
- How to make a non-fiction book.
 - Using pictures and labels to
 - 3D shapes : rectangular prism, cylinder, cube, sphere, pyramid, and cone.
- Making a bar graph.
- “Star words”: I, see, the, like, me, in, my, and, up, she, he, went, can, am, come, it, will, go, do, look, you.
- Writing equations - addition and subtraction.

Ask Me

- To share penguin facts, I learned.
- To point out 3D shapes I recognize.
- To write 2 equations to make the number 5.
 - To read a book with you.
 - To write some of my star words.
 - To count to 100 by 10s.
 - To play a card game.

Reminders!

Please send a baby picture of your Kindergartener to Mrs. Berg for our KinderGARDEN performance this spring.
