

BOARD POLICY 881.2

881.2 - Relations with Parent-Teacher Organizations

Parent-Teacher Organizations, hereinafter referred to as organization(s), must be officially recognized by the district in order for the organization to raise funds, donate equipment and provide other support to the district's programs and students. The district liaison to the organization shall be the building principal. The building principal shall make a determination on whether an organization is officially sanctioned by the district using the following criteria:

1. The organization's official Bylaws and operating procedures are filed with the building principal.
2. The organization has shown its agreement to all of the terms and conditions contained in **881.2-Exhibit: Application for Official Sanction of Parent-Teacher Organizations** by completing, signing and filing it with the building principal on an annual basis.

Upon receiving official determination by the building principal, the organization may use the district's or school's name, mascot and other symbols.

The building principal will be responsible for informing officially sanctioned organizations of applicable school district policies, guidelines, and procedures on an annual basis. The organization's approval by signature of **881.2-Exhibit: Application for Official Sanction of School Parent-Teacher Organizations** shall fulfill this notification requirement.

The Board of Education specifically empowers the District Administrator to remove the officially sanctioned designation from an organization if the organization violates any rule, regulation or policy of the district or other governing body or if the organization does not operate in a manner consistent with public expectations for schools.
