

2013 - 2014 *School Nurse Report*

Every child deserves a
school nurse

The Value of a School Nurse

Why is it important
that our students
have access to a
school nurse?

School nurses play a powerful role in educational achievement of students so that students can:

- ✓ Come to school
- ✓ Stay in school
- ✓ Be ready to learn
- ✓ Be safe

School Health Services

- Current Responsibilities:
 - ✓ Provides and Directs care for all students and staff
 - ✓ Develops IHP's and emergency care plans, provides training to staff according to these plans
 - ✓ Coordinates, supervises and provides training for medication administration

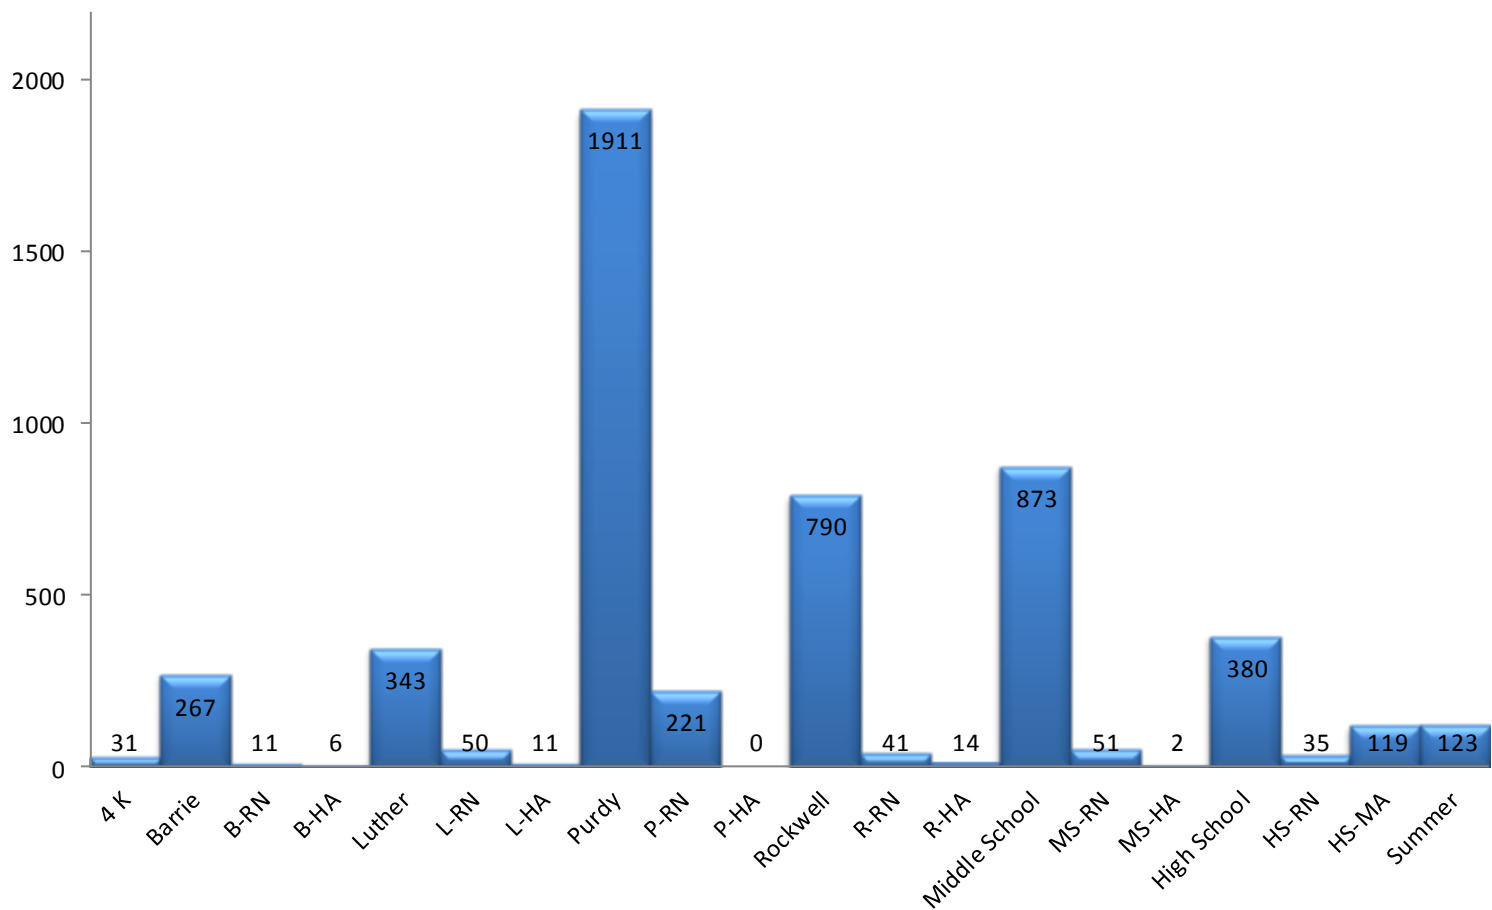

School Health Services

- Current Responsibilities (cont.)
 - ✓ Assists with the coordination of CPR/First Aid training for Code Blue Teams
 - ✓ Performs health screenings; oversee wellness programming; participate in district wellness committee
 - ✓ Bill third party payers for qualified services

Challenges to Health Services

- Increasing complexity of student needs
 - Increased concerns surrounding mental health
 - Lack of time to provide essential:
 - Planning for student health needs
 - Case management
 - Collaboration with professionals
 - Adequate documentation
 - Scheduling vital training for staff
 - Training enhancement opportunities
- 
- 

School Health Services

- Future Goals:
 - Wellness programming (staff/student)
 - Obesity- 10% of WI students are obese (CDC, 2011)
 - Nutrition
 - Exercise
 - Fitness Gram software/PE teacher
 - FHC Cerner Challenges- Increase Participation
 - Rock the Walk- step program in Fall- 24 district employees participated- Total of 8,524,948 steps with the overall stepper for the team coming from SDFA!
 - Slim Down Challenge- Weight loss teams- Spring- 74 district employees participated on 19 different teams- SDFA had the #1 overall “Loser” for the whole challenge! 10 teams made it to the finish!
 - Policy and Procedure Review
 - Improve IHP involvement

What can you do?

- Promote and nurture the vision that healthy students + healthy school = educational success
- Encourage school, family and community in strengthening strategies that remove barriers to learning
- Encourage development of school policies and procedures that support healthy students who are ready-to-learn

Healthy children learn better

School nurses make it happen
